

Name: _____

Period: _____

Polymer Clay Minis

Objectives:

- Create a scene or group of miniature items that are arranged in such a way that they belong together
- Create at least 10 items out of polymer clay (each item smaller than a quarter)
- When complete, the entire piece must fit in one hand
- Create an interesting and creative way to display them together that goes with your overarching idea (inside a jar, in an Altoids tin, on a base you create i.e. picnic blanket, desk, etc.)

Grading: 25 points total

- 20 points for each **DETAILED** quality object made (2 points possible for each item). Time and effort are apparent.
- 3 points for having a creative, well-crafted display to showcase your items (put time and effort into creating this. It should not be an afterthought.
- 2 points for thoughtful answers to critique questions

List the 10 miniature items you will create.

Explain how you will creatively display your items.

Create a **sketch** on the back of this paper of the overall scene.

1)	6)
2)	7)
3)	8)
4)	9)
5)	10)

How will you creatively display your items:
