

Sculptural Teapot with Matching Teacup Sketch

Objectives:

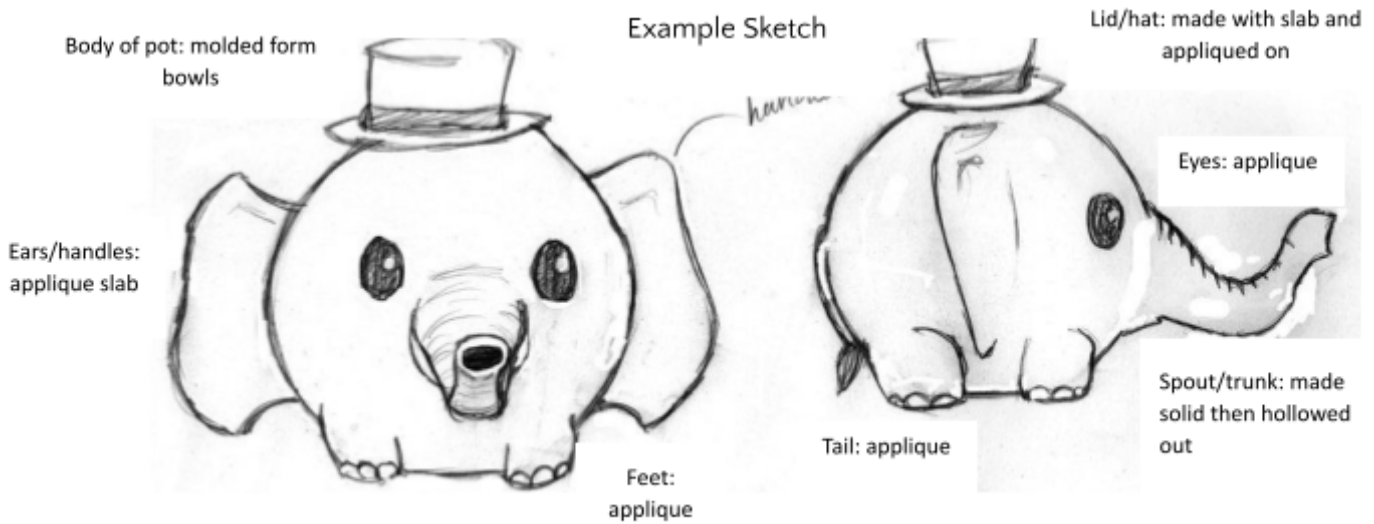

- Design and create a unique and functional, sculptural teapot (must look like something other than a teapot) OR design and create a unique themed teapot (the theme must be obvious and incorporate many decorative techniques. Do not simply add decorations to a teapot.
- Create a teacup to accompany your teapot. It does not have to be sculptural but must be an obvious companion to your teapot.
- Choose an appropriate hand building technique that best suits your design (pinch, coil, slab, mold or a combination)
- Teapot MUST include a lid, handle, and a working spout
- Teapots MUST be functional (handle supports weight, lid stays in place, spout pours) but does not have to be practical. It can be a work of art.
- QUALITY, CREATIVITY and CRAFTSMANSHIP are key!!!!

Grading: 25 points total

- 10 points – creating a sculptural or themed teapot with appropriate building method(s) with great quality and craftsmanship. This includes time on task.
- 5 points - functional lid (fits on properly - may require a flange, does not fall off, isn't glazed shut, etc.)
- 5 points - working spout that pours water and a handle that is free from cracks and supports the weight of the teapot
- 3 points - companion teacup made with great quality and craftsmanship.
- 2 points – reflective and thoughtful answers on self critique

Create your sketch on the back of this page. Show all details. Draw 2 different viewpoints. Write down the building methods you will use and the decorative techniques you will use. The more details and notes you include the better. You MUST stick to sketch on this one or make a new one if you change your mind!!!!
