

Slab Box or Sculpture

Objectives

- Make a slab box or sculpture with a minimum of 6 walls (can have more). One side may be a lid.
- If you create a lid as a side, it must have a slab or coil lip to hold it in place
- Your piece must be approximately 5 x 5 x 5 inches (or a volume of approximately 125 inches)
- 4 of your sides must be decorated (the same technique may be used for all sides if you like) using one of following decorative techniques (applique, carving, piercing, impressing, and/or sgraffito)

Grading: 25points

5 points: 6 or more walls are used and the piece meets the size requirements

5 points: A minimum of 4 walls have a decorative technique used with obvious time and effort put forth

5 points: All corners and seems and blended and there is little sagging and warping of walls

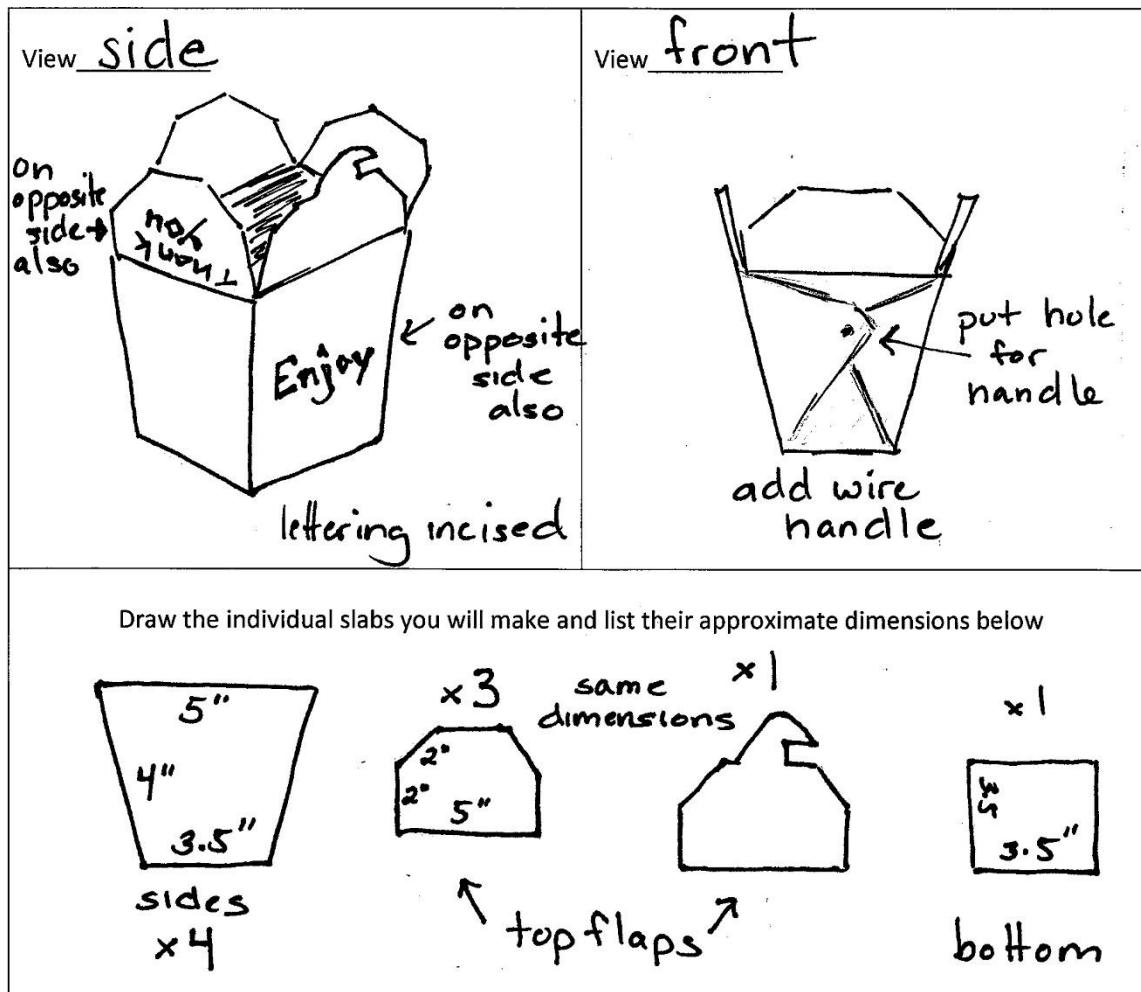

7 points: Time and effort and apparent in design, construction, and glazing and/or painting

2 points: self-reflection complete with answers explained thoughtfully

1 point: name incised into bottom of piece before firing

Draw your piece below from two different views (front, back, left side, right side, top, or bottom). Label the view and label the decorative technique(s) you will use on one of the drawings. Also draw the individual slabs you will make for your piece and estimated dimensions.
